

Atiq Ur Rehman

Full Stack .NET Developer

Islamabad, Pakistan | +92-341-1044375 | atiqmasood31@gmail.com | linkedin.com/in/atiq-ur-rehman14

CAREER SUMMARY

Full Stack .Net Developer with 3+ years of hands-on experience designing, developing, and maintaining scalable business, web, and desktop applications using C#, ASP.NET Core, ASP.NET MVC, WPF/XAML/MVVM, Angular, Entity Framework, ADO.NET, SQL Server, MySQL, and PostgreSQL. Experienced in REST API development, enterprise modules, reporting systems, database optimization, and production issue resolution. Contributed to ABIS (Automated Biometric Identification System) workflows involving biometric enrollment, WPF desktop modules, API integration, large-scale data handling, and secure enterprise application delivery.

TECHNICAL SKILLS

Languages: C#, C++, JavaScript, TypeScript, SQL, HTML, CSS

Frontend & Desktop: Angular 13/16, WPF, XAML, MVVM, JQuery, Bootstrap, HTML, CSS

Architecture: Clean Architecture, Repository Pattern, CQRS, Mediator Pattern, OOP, Design Patterns, Agile

Backend: ASP.NET Core, ASP.NET MVC/API, .NET Framework, .NET Core, .NET 6, .NET 8, Web API, REST API

Databases & Reporting: PostgreSQL, SQL Server, MySQL, Stored Procedures, Query Optimization, Crystal Reports

Tools: Entity Framework, EF Core, ADO.NET, Dapper, LINQ, Postman, Swagger, GitHub, GitLab, Bitbucket, Visual Studio 2022, VS Code, Docker, SignalR

WORK HISTORY

Full Stack .Net Developer

August 2025 - Present

TECHOSTUDIOS PVT LTD (Consult First IM&T - UK)

Islamabad, Pakistan | Client: Black Ocean Safi Group / Blue Ocean Safi Group - Afghanistan MOI & NSIA

- Contributed to ABIS (Automated Biometric Identification System), a government-grade biometric platform supporting enrollment, verification workflows, biometric data handling, and operational modules.
- Developed and enhanced ASP.NET Core / .NET 8 REST APIs for biometric enrollment, reporting, integration, data exchange, and enterprise workflow support.
- Built and maintained WPF desktop application modules using XAML and MVVM patterns for desktop/offline workflows, review screens, and user-facing operational features.
- Worked with PostgreSQL and SQL Server for schema design, optimized queries, stored procedures, indexes, and large-volume application data handling.
- Supported ABIS.WebApi, ABIS.User, EFT/ANTemplate import-export, and biometric workflows including fingerprint, face, iris, and palm processing modules.
- Collaborated with senior developers, QA, and stakeholders to troubleshoot production issues, improve performance, and deliver stable releases in an Agile environment.

Technologies: C#, .NET 8, ASP.NET Core, REST APIs, WPF, XAML, MVVM, Entity Framework Core, PostgreSQL, SQL Server, Docker, Git, Swagger, SignalR.

Full Stack .NET & Angular Developer

March 2025 - August 2025

ENCODAL

Faisalabad, Pakistan | Remote

- Developed and maintained scalable enterprise web applications using Angular frontend modules and ASP.NET Core backend services.
- Designed RESTful APIs and service layers using Web API, EF Core, and Dapper to support business logic, reporting, and data access workflows.
- Modernized legacy modules by migrating to .NET 6 and applying Clean Architecture, CQRS, Mediator Pattern, and Repository Pattern.
- Implemented background jobs with Hangfire and improved API documentation/testing using Swagger and Postman.
- Resolved compatibility issues during Angular migration, optimized performance, fixed bugs, and delivered production-ready features.

Technologies: Angular 13/16, ASP.NET Core, EF Core, Dapper, SQL Server, MySQL, CQRS, Mediator Pattern, Bitbucket, Clean Architecture.

.NET Developer

March 2023 - February 2025

H3 SOLUTIONS.Net

Faisalabad, Pakistan | Onsite

- Developed and maintained core HR modules including Employee Self Service Portal, Leave Flow Management, Manual Attendance, Performance Management, Task Management, and Asset Flow Management.
- Designed ASP.NET Core, EF Core, ASP.NET MVC/API, and Web API solutions to streamline business logic and improve system reliability.
- Built and optimized Crystal Reports for payroll, asset flow, attendance, and performance tracking across business clients.
- Worked with MS SQL Server to design normalized databases, write optimized queries, stored procedures, and ensure data integrity.

- Collaborated with clients and internal stakeholders to gather requirements, fix production issues, and deliver customized features across 50+ companies.

Technologies: C#, ASP.NET MVC/API, ASP.NET Core, EF Core, Dapper, ADO.NET, ASP.NET Web Forms, JavaScript, TypeScript, Angular, jQuery, SQL Server, MySQL, Crystal Reports, GitHub, GitLab, Bitbucket.

KEY PROJECTS

ABIS (Automated Biometric Identification System) - .NET 8, WPF, MVVM, PostgreSQL, REST APIs, Docker

Government-level biometric platform supporting enrollment and biometric data workflows for fingerprint, face, iris, and palm. Contributed to desktop modules, backend APIs, data handling, and integration workflows for large-scale enterprise operations.

Online Mediation for Family Business - .NET Core Web API, Angular 16, JWT, SQL Server, Entity Framework

Built a secure web platform with performance appraisal, challenge assessment, profile system, project management, task-based performance, employee portal, and analytics dashboard modules.

IEHMS (Integrated Employee and Health Management System) - ASP.NET MVC, JavaScript, Bootstrap, CSS, SQL Server

Developed healthcare management modules for patient, pharmacy, admin, and management workflows using MVC architecture, modular areas, and database-backed application logic.

EDUCATION

BS Computer Science

National University of Modern Languages, Faisalabad Campus

SOFT SKILLS

Team collaboration | Communication | Problem solving | Analytical thinking | Time management | Production issue ownership
